ANNEXURE TO THE NOTICE

Explanatory Statement pursuant to section 102 of the Companies Act, 2013:

In respect of Item No. 3: Regularization of Appointment of an Independent Director:

Mr. Manish Amin (DIN: 08146675) was appointed as an Additional Director by the Board of Directors on 31st March, 2019. In accordance with the provisions of Section 161 of the Companies Act, 2013, pursuant to the said section the above director holds office up to the date of the ensuing Annual General Meeting. The Company has received a notice in writing from a member of the company proposing his candidature for appointment as Director of the Company in accordance with the provisions of section 160 of the Companies Act, 2013. Mr. Manish Amin (DIN: 08146675) is not disqualified from being appointed as a Director in terms of section 164 of the act. Section 149 of the Act stipulates the criteria of Independence and pursuant to said section an independent director can hold office for a term upto 5(five) consecutive years on the Board of the company and shall not be included in the total number of directors for retirement by rotation. The Company has received a declaration from Mr. Manish Amin that he meets the criteria of Independence as prescribed under sub- section(6) of section 149 of the Act and under SEBI (LODR) Regulation. Brief resume of Mr. Manish Amin together with other details as required under SEBI (LODR) Regulation is provided as an annexure to the notice calling Annual General Meeting. The Board feels that presence of Mr. Manish Amin on the Board is desirable and would be beneficial to the company and hence recommend the resolution for adoption.

Except Mr. Manish Amin (DIN: 08146675), None of the other Directors/Key Managerial Personnel of the Company/their relatives are in any way, concerned or interested in the proposed resolution.

In respect of Item No. 4: Borrowing Limits of the Company.

Under the provisions of Section 180 (1)(a),(c),(d) of the Companies Act, 2013, the Board of Directors of a Company could, with the consent of the shareholders obtained by a Special Resolution, borrow moneys, apart from temporary loans obtained from the Company's Bankers in the ordinary course of business, in excess of the aggregate of paid-up capital, free reserves of the Company, that is to say, reserves not set apart for any specific purpose and Securities Premium and the above powers can be exercised by the Board only with the consent of the shareholders obtained by a Special Resolution.

Under the provisions of Section 180(1)(a) of the Companies Act, 2013, the Board of Directors of a Company could, with the consent of the shareholders obtained by a Special Resolution, create charge/mortgage/hypothecation on the Company's assets, both present and future, in favor of the lenders/trustees for the holders of debentures/bonds, to secure the repayment of moneys borrowed by the Company (including temporary loans obtained from the Company's Bankers in the ordinary course of business). As such, it is necessary to obtain approval of the shareholders by means of a Special Resolution, to enable the Board of Directors of the Company to create charge/mortgage/hypothecation on the Company's assets, both present and future, in favor of the lenders/trustees for the holders of debentures/bonds, to secure the repayment of moneys borrowed by the Company (including temporary loans obtained from the Company's Bankers in the ordinary course of business). As the documents to be

executed between the Company and the lenders/trustees for the holders of debentures/bonds may contain the power to take over the management of the Company in certain events, it is necessary to obtain Members approval under Section 180 (1)(a) of the Companies Act, 2013, by way of a Special Resolution.

The Board recommends the Resolution at Item No.4 of the Notice for approval of the shareholders by a Special Resolution.

None of the Directors and key managerial personnel of the Company, their respective relatives are concerned or interested in the Resolution.

ANNEXURE-C TO THE DIRECTORS REPORT

MANAGEMENT DISCUSSION AND ANALYSIS

To,
The Members,

• **ECONOMIC REVIEW:**

Over the past two fiscal years, the Indian stock market has soared, outperforming many other major markets. Over the coming year, the government will need to ensure that the process of resolving the major indebted cases and recapitalizing the public sector banks is carried to a successful conclusion. Besides, a weak march quarter earnings outlook for the Banking sector and a drop in Equity Mutual fund inflows are other woes. Equity market may be expected to remain range bound and the stocks with fundamental traits are likely to outperform.

The Indian economy advanced 5.8 percent year-on-year in the first quarter of 2019, slowing from a 6.6 percent expansion in the previous period and missing market expectations of 6.3 percent. It was the weakest growth rate since the first quarter of 2014, amid weaker consumer demand and fixed investment. The most important and the fastest growing sector of Indian economy are services, Trade, hotels, transport and communication; financing, insurance, real estate and business services and community, social and personal services account for more than 60 percent of GDP. India's foreign exchange reserves were US\$ 405.64 billion in the week up to March 15, 2019, according to data from the RBI.

A series of major reforms undertaken in India over the past year will allow real GDP growth to reach 6.6 percent this fiscal and will rise to 7.0 to 7.2 percent in 2019-20, thereby re-instating India as the world's fastest-growing major economy. The reform measures undertaken in 2018-19 can be strengthened further in 2019-20.

• **INDUSTRY STRUCTURE AND DEVELOPMENT:**

The development of Indian security markets began with launch of Bombay Stock Exchange (BSE), Mumbai in July 1875 and Ahmedabad Stock exchange in 1894 and 22 other exchange in various cities over the years.

During 2018-19 (up to February 2019), merchandise exports from India have increased 8.85 per cent year-on-year to US\$ 298.47 billion, while services exports have grown 8.54 per cent year-on-year to US\$ 185.51 billion. The fund raising from the primary market this year is expected to see a drop due to market volatility and political uncertainty. Globally things are very volatile. Interest rates are going up in US. The flattening of the yield curve is signaling a recession two years from now. The trigger for recession could be anything.

Proceeds through Initial Public Offers (IPO) in India reached US\$ 5.5 billion in 2018 and US\$ 0.9 billion in Q1 2018-19. Net employment generation in the country reached a 17-month high in January 2019.

• **OPPORTUNITIES AND THREATS:**

The recovery proceedings against past dues of the company are in progress. There is huge delay in recovering the dues from them due to slow and pro-defendant legal system. However the company has implemented the action plan for speedy recovery of dues from its defaulters. The company does not have powers like Bank under various legislations. The Indian financial markets are stable and the company is sure to get benefits of the overall economic growth environment. The company is exploiting opportunities in the capital market and investment banking. The present government is also supportive of business growth and for the purpose amended many Acts and introduced new laws like The Insolvency and Bankruptcy Code, 2016, amendments in Companies Act, 2013, Income Tax Act, 1961, making effective Goods and Service Tax for making the business easy in India. On the whole foreign investors are very positive on India and its policies. Ease of doing business, however, still needs to improve. Some of reforms have been initiated which shall continue irrespective of Government in power. And thereby attract foreign investment, relaxing FDI in many sectors and other steps to grow the economy by the government creates optimistic business environment. It shall also be helpful to your Company for resolving its pending issues related to past dues from various business transactions carried out.

• **SEGMENT WISE PERFORMANCE:**

The company operated in two major segments of consulting and investments. The capital raising activity is rising as the market is under recovery stage of business cycle. The new measures adopted by government in power are positive to the growth of capital market. The capital market has already gained momentum and it will definitely improve the performance of company under its two major segment i.e. consulting and investment. The World Bank had forecast a growth rate of 7.0% for India this year and 7.5% for 2019-20. India is a large market with vast infrastructural gaps that needs to be plugged in its quest for next phase of industrial growth.

• **OUTLOOK:**

The Indian economy is growing strongly and remains a bright spot in the global landscape. India's overall outlook remains positive, although growth was slow temporarily as a result of disruptions to consumption and business activity from the recent withdrawal of high-denomination banknotes from circulation. The country's economy has recovered from effect of demonetization and GST. The nation's expansion will pick up as economic reforms accelerate. The government has made significant progress on important economic reforms, which will support strong and sustainable growth going forward. Therefore, the company is optimistic about the recovery of Indian economy and the capital market. India is relatively less impacted from global protectionist measures as domestic consumption is around 63% of GDP.

• **RISKS AND CONCERNS:**

The capital market industry is mainly dependent on economic growth of country and capital market is also further affected by number of issues arising out of International policies of foreign government as well any change in international business environment. The industrial growth is very sensitive which is dependent on many factors which may be social, financial, economical or political and also natural

climatic conditions in the country. However, with the positive attitude of country which can mitigate the avoidable risks. Geopolitical tensions, raising crude oil prices, rising US bond yields, scams in the banking sector are some of the affecting factors that the country witnessed during the year under review. The country faced the said concerns with positive measures by way of making amendments or introducing new laws that can assist to grow the economy. Foreign investors are very positive for India and trust its policies which are very much investor friendly. It is expected that the said efforts shall continue during the coming years irrespective of the Government which is in power.

- **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The company has implemented proper system for safeguarding the operations/business of the company, through which the assets are verified and frauds, errors are reduced and accounts, information connected to it are maintained such, so as to timely completion of the statements.

The Company has adequate systems of Internal Controls commensurate with its size and operations to ensure orderly and efficient conduct of business. These controls ensure safeguarding of assets, reduction and detection of fraud and error, adequacy and completeness of the accounting records and timely preparation of reliable financial information. The company has internal audit and verification at regular intervals.

The requirement of having internal auditor compulsory by statute in case of listed and other classes of companies as prescribed shall further strengthen the internal control measures of company.

- **DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE**

The financial performance of the Company for the financial year 2018-19 is described in the Directors' Report under the head "Financial Performance".

- **MATERIAL DEVELOPMENTS IN HUMAN RESOURCES:**

The cordial employer- employee relationship also continued during the year under the review. The company has continued to give special attention to human resources.

- **CAUTIONARY STATEMENT:**

Statement in this management discussion and analysis report, describing the company's objectives, estimates and expectations may constitute "forward looking statements" within the meaning of applicable laws or regulations. Actual results may differ materially from those either expressed or implied. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

- **DISCLOSURE OF ACCOUNTING TREATMENT**

In preparation of financial statements, a treatment as prescribed in an Indian accounting standard has been followed.

The other information comprises the information included in the Report on Corporate Governance, Shareholder information and Report of the Board of Directors & Management Discussion and Analysis, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these IND AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (IND AS) specified under section 133 of the Act., read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the IND AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also

responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or if such disclosures are inadequate to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguard.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The Balance Sheet, Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- d) In our opinion, the aforesaid IND AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e) On the basis of written representations received from the directors as on March 31, 2019, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019, from being appointed as a director in terms of section 164 (2) of the Act;
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B” to this report;
- g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its IND AS financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company

- 4) In our opinion and according to the information and explanations given to us, the company has not given any loan to directors u/s 185 and not given any loan, guarantee or provided security under section 186 of the Companies Act, 2013.
- 5) The Company has not accepted any deposits from the public and hence the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the Companies (Acceptance of Deposit) Rules, 2015 with regard to the deposits accepted from the public are not applicable.
- 6) As informed to us, the maintenance of Cost Records has not been specified by the Central Government under sub-section (1) of Section 148 of the Act, in respect of the activities carried on by the company.
- 7) (a) According to information and explanations given to us and on the basis of our examination of the books of account, and records, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employees State Insurance, Income-Tax, Sales tax, Service Tax, Duty of Customs, Duty of Excise, Value added Tax, Cess and any other statutory dues with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of the above were in arrears as at March 31, 2019 for a period of more than six months from the date on when they become payable.
- b) According to the information and explanation given to us, there are no dues of income tax, sales tax, service tax, duty of customs, duty of excise, value added tax outstanding on account

- of any dispute.
- 8) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of dues to banks. The Company has not taken any loan either from financial institutions or from the government and has not issued any debentures.
 - 9) Based upon the audit procedures performed and the information and explanations given by the management, the company has not raised moneys by way of initial public offer or further public offer including debt instruments and term Loans. Accordingly, the provisions of clause 3 (ix) of the Order are not applicable to the Company and hence not commented upon.
 - 10) Based upon the audit procedures performed and the information and explanations given by the management, we report that no fraud by the Company or on the company by its officers or employees has been noticed or reported during the year.
 - 11) Based upon the audit procedures performed and the information and explanations given by the management, the managerial remuneration has been paid or provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act;
 - 12) In our opinion, the Company is not a Nidhi Company. Therefore, the provisions of clause 3 (xii) of the Order are not applicable to the Company.
 - 13) In our opinion, all transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 and the details have been disclosed in the Financial Statements as required by the applicable accounting standards.
 - 14) Based upon the audit procedures performed and the information and explanations given by the management, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of clause 3 (xiv) of the Order are not applicable to the Company and hence not commented upon.
 - 15) Based upon the audit procedures performed and the information and explanations given by the management, the company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, the provisions of clause 3 (xv) of the Order are not applicable to the Company and hence not commented upon.
 - 16) In our opinion, the company is not required to be registered under section 45 IA of the Reserve Bank of India Act, 1934 and accordingly, the provisions of clause 3 (xvi) of the Order are not applicable to the Company and hence not commented upon.

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of Mehta Securities Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Mehta Securities Limited (“the Company”) as of **March 31, 2019** in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

The financial statements are approved for issue by the Company's Board of Directors on May 30, 2019.

2. Statement of compliance:

The standalone financial statements have been prepared in accordance with IND AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

Up to the year ended March 31, 2017, the Company prepared its standalone financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with rules there under ('Indian GAAP' or 'previous GAAP'). These are the Company's second IND AS financial statements. The date of transition to IND AS is April 1, 2016. These standalone financial statements comprising of Balance Sheet, Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows as at March 31, 2019 have been prepared in accordance with Indian Accounting Standards ('INDAS') as prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. Previous period numbers in the standalone financial statements have been restated to IND AS. Refer Note for the details of first-time adoption exemptions availed by the Company.

Accounting Policies have been consistently applied except where a newly issued IND AS is initially adopted or a revision to an existing standard requires changes in the accounting policy there to in use.

3. Basis of preparation and presentation of standalone financial statements:

The standalone financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below:

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics in to account when pricing the asset or liability at them measurement date. Fair value for measurement and/or disclosure purposes in these standalone financial statements is determined on such basis.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

4. The principal accounting policies are set out below:

a. Use of estimates:

The preparation of these standalone financial statements in conformity with the recognition and measurement principles of IND AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the standalone financial statements and the reported amount so far come and expense for the periods presented. The estimates and assumptions used in the accompanying standalone financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the financial statements. Actual results could differ from estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment and provisions and contingent liabilities.

Critical accounting judgments and key sources of estimation uncertainty

(i) Impairment of Non-financial assets

Impairment exists when the carrying value of assets exceeds its recoverable amount, which is higher of its fair value less cost of disposal and its value in use. The value in use is determined based upon discounted cash flow model which is derived from the budget determined by the Company. There coverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used.

(ii) Provisions and contingent liabilities

A provision is recognized when the Company has a present obligation as a result of past event and it is probable than an out flow of resources will be required to settle the obligation, in respect of which there liable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. A contingent asset is neither recognized nor disclosed in the financial statements.

(iii) Other estimates:

The preparation of standalone financial statements involves estimates, classification and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of standalone financial statements and there ported amount of revenues and expenses for the reporting period. Specifically, the Company estimates the probability of collection of accounts receivable by analyzing historical payment patterns, customer concentrations, customer credit- worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

b. Revenue recognition:

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Sale of Goods

Revenue from the sale of goods is recognized when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company ; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest Income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income is accounted for when the right to receive it is established.

Insurance claims are accounted at the time when there is a certainty with regard to the receipt of claim.

c. Tangible Fixed Assets:

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalized in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipments are stated at cost less accumulated depreciation and accumulated

impairment losses.

Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the Written down Value Method (WDV). The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

d. Depreciation on tangible fixed assets:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on plant and machineries is provided using the Written Down Value Method (WDV) and for tangible assets other than plant and machineries is provided using the useful lives of the assets mentioned under Companies Act, 2013.

e. Impairment of tangible assets:

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Company of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

f. Non-current assets held for sale

Non-current assets and disposal Group of assets are classified as held for sale if the in carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets (and disposal group) classified as held for sale are measured at the lower of

their carrying amount and fair value less costs to sell.

g. Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

h. Inventories:

Inventories are stated at the lower of cost and net realizable value. Cost is determined on actual cost determined on First-In-First- Out (FIFO) basis. Net realizable value represents the estimated selling price for inventories less all costs necessary to make the sale.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

i. Financial instruments:

Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The company classifies its financial assets as per Ind AS 109 those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and those to be measured at amortised cost. The company has made an irrevocable election not to present the other comprehensive income and subsequent changes in the fair value of equity instruments not held for trading.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable of financial assets and liabilities at fair value through profit or loss are immediately recognised profit or loss.

Financial assets at amortised cost

Financial assets subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and contractual terms of the financial assets give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Impairment of financial assets

The Company assesses at each of Balance Sheet date whether a financial assets or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through loss allowance. The Company recognizes lifetime expected credit losses for all contracts and/or all trade receivables that does not constitute financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

De recognition of financial assets

The Company de recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises collateral is borrowing for the proceeds received.

On de recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On de recognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognizes on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognized and the part that is no longer recognized on the basis of the relative fair values of those parts.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity

after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debt or fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Company entity are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 18.

De recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability de recognized and the consideration paid and payable is recognized in profit or loss.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset there cognized amounts and there is an intention to settle on a net basis or real is the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counter party.

j. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

k. Foreign currency:

The functional currency of the Company is Indian rupee (INR).

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Statement of Profit and Loss.

l. Retirement and other employee benefits:

- (i) Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each Balance sheet date. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognises related restructuring costs or termination benefits.

(ii) Defined contribution plans

Contribution to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

(iii) Compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the Balance sheet date.

m. Income Tax:

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the standalone financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the period

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity

respectively.

n. Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

o. Provisions and contingencies:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

p. Earnings per equity share:

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the standalone financial statements by the Board of Directors.

q. Operating Cycle:

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and the realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Note 19 - Financial risk management objectives and policies

The Company's activities expose it to a variety of financial risks including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. The Board of Directors and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

The Company's financial risk management policy is set by the management. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. The Company manages market risk which evaluates and exercises independent control over the entire process of market risk management. The activities include investment in mutual fund (debt and equity), Equity Shares, Debentures, Alternative Investments plans, Real Estate Exposure through non-convertible debentures/as capital contributions in subsidiaries and other strategies investments. The market value and future yield on debt fund will fluctuate because of changes in bank rate, RBI Policy and market interest rates while market value of the equity instruments changes on account of performance of various industries/ investee in which the Company has made an investments. In order to optimize the Company's position with regards to appreciation in value of mutual fund and to manage the interest rate risk, it performs a comprehensive corporate interest rate risk management by balancing the proportion of floating rate and accruals financial instruments in its total portfolio.

a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, investments, inter-corporate deposits and financial guarantees. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counter party credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counter parties, taking into account their financial position, past experience and other factors. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

(i) Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis. The Company does not hold collateral as security for outstanding trade receivables. The history of trade receivables shows an eligible provision for bad and doubtful debts.

(ii) Investments and other financial assets

The Company limits its exposure to credit risk by generally investing in liquid securities, equity shares, mutual funds and other investments and only with counter parties that have

a good credit rating. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors. For derivative and financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned. The Company does not expect any material credit risk on account of non-performance by counter parties to whom the financial assets receivables.

(iii) Financial assets that are past due but not impaired

Credit risk from balances with banks and financial institutions is managed by the management in such a manner that it is exposed to the lowest possible risk. None of the Company's cash equivalents, including term deposits (i.e. certificates of deposit) with banks, were past due or impaired as at March 31, 2019.

b. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company invests its surplus funds in various marketable securities to ensure that the sufficient liquidity is available. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

The Company also has access to a sufficient variety of sources of funding with the banks. Considering surplus funds invested in liquid investments, the Company does not perceive any liquidity risk.

c. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk- sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk- sensitive financial instruments. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities.
